

Darling Fajardo

Santo Domingo, D.N., Dominican Republic · [linkedin.com/in/darlingdev](https://www.linkedin.com/in/darlingdev) · +1 809 401 7444 · darlingf1998@gmail.com

Over 3 years of experience as a Software Developer. I am leading Front-End development at the National Energy Commission, achieving a 40% improvement in product delivery, a 25% increase in web performance, and a unified platform. As a programmer, I lead experimental projects in finance, HR, and commercial areas with university teams. Access my portfolio here darlingcv.dev.

PROFESSIONAL EXPERIENCE

National Energy Commission Web Developer

D.N., Dominican Republic
March 2023 – Present

- Developed a unified platform of components and tools across the company's products to converge technically and scale product delivery.
- Implemented CI/CD practices to improve software delivery efficiency, reducing errors and lead times and cutting deployment times by over 80%.
- Contributed to optimization and web performance improvements for products such as the Intranet and the database schema.
- Led UI/UX improvements and collaborated on new products such as Backoffice and Performance Evaluation.
- Implemented scalable architectures (microservices and event-driven design patterns) to ensure robustness, flexibility, and maintainability, enabling integration of new modules and product evolution.
